In re Reissue Application for Patent No. 6,024,708 :  
Original Patent Issued: February 15, 2000 : PETITION ACCORDING STATUS  
Reissue Application No. 10/074,012 : UNDER 37 CFR 1.47(a)  
Filed: February 14, 2002 :  
Attorney Docket No. 06530.0290 :

This decision concerns the July 18, 2003 renewed petition under 37 CFR 1.47(a).

The renewed petition is **GRANTED**.

The previous petition under 37 CFR 1.47(a), filed on July 3, 2002, was dismissed on May 20, 2003 for failing to show that a copy of the patent, No. 6,024,708, as well as all the amendments in the instant reissue application had been presented to two of the three named inventors in this application before the conclusion was drawn that they refused to join in.

The instant renewed petition and the exhibits indicate that the requirement is met; and that one of the two non-signing inventors expressly refused to sign the declaration, and the third inventor did not respond to counsel's requests to execute the declaration. The renewed petition is thus granted.

The "Reissue Declaration under 37 CFR 1.175" filed with the instant reissue application on February 14, 2002 is hereby accepted.

The application is now complete.

As provided in 37 CFR 1.47(c), the Office will forward notice of the filing of this application to the two non-signing inventors at each of their last known addresses provided in the petition:
